

Welcome to Psych 205

You can access this document by visiting our course webpage and clicking on Lecture 1 :
<https://catterson.github.io/gradstats/gradstats.html>

Please fill out this short check-in, and help yourself to coffee + treat if you'd like.

We will get started soon!

Goals of this Lecture

1. Introductions to the class.
2. Introductions to statistics.
3. Introductions to the program R.

Introductions to the Class

The Professor and TA and Students.

We learn from each other!¹

💡 Some brief introductions [~ 30 seconds!]

What's your name and where are you from?	Why are you at UC Berkeley?	What's your 1-2 sentence research topic?	Favorite place to eat in the Bay Area?
--	--------------------------------	--	--

¹Thanks to Frederic Theunissen & Steve Pantiadosi for sharing their knowledge and materials with me.

The Course

- **Online :**
 - **[website]** (<https://catterson.github.io/gradstats/gradstats.html>)**:** syllabus and
